full data, val accuracy

- static: None_val_accuracy - trainable: 0.3_val_accuracy - trainable: 0.5_val_accuracy - static: 0.5_val_accuracy

dropout parameters

- static: 0.5_parameters - trainable: 0.3_parameters - trainable: 0.5_parameters

10% data (overfitting), val accuracy

- static: 0.3_val_accuracy - trainable: 0.3_val_accuracy

dropout parameters

- static: 0.3_parameters - trainable: 0.3_parameters
